Engraved Memorials — Packages & Pricing

Cross Boundaries Through Resonance

To exist. To act. To eternity.

Your story matters.

A Japanese family in Maui helps Japanese-Americans return ashes to ancestral graves, reconnect with their roots, and preserve memories across the Pacific — born from their own journey of loss and healing after their beloved dog Pearl.

Laser-engraved keepsakes to preserve your memories.

Standing at the Boundary?

You're not alone. We've been there too.

A **Boundarist** is someone standing at the boundary — someone who has experienced the moment when systems stop working as they "should."

Whether you're outside the system or seeing its limits from within.

If you're...	The message for you
Outside (system failed you)	"It's okay to exist."
Inside (seeing limits, wanting to act)	"You can act on your own judgment."
Everyone	"Your story matters."

The 7 Systems We Depend On

Standing at the boundary = when these systems shake:

System	What we depend on	When it shakes
Survival	Body, housing, energy	Illness, homelessness, power outage
Social	Family, partner, community	Bereavement, divorce, isolation
Economic	Income, assets, credit	Job loss, bankruptcy, layoffs
Institutional	Nationality, visa, qualifications	Entry denied, license revoked
Information	Communication, access	No signal, censorship
Inner	Identity, meaning, spirit	"Who am I?", burnout
Temporal	Life stage, generation	Feeling outdated, generation gap

Timeless Eternal Hope — Four Pillars

Pearl Memorial is part of **Timeless Eternal Hope**, built on four pillars:

Pillar	What it means	How we do it
 Carry	Soul Carrier	We carry souls home
 Inscribe	Proof of existence	Laser engraving preserves memories
 Preserve	Disaster-resistant memory	Quartz glass, QR archives
 Sustain	Digital independence	Your own micro datacenter, protection on your terms

Soul Carrier — Reuniting Roots

For Japanese-American families seeking to reconnect with their heritage.

We carry souls home.

We understand what it means to have roots across the ocean. People crossed the Pacific for different reasons, in different eras. Over the years, connections to their homeland faded — but the longing never did.

We help deliver:

- Ashes to ancestral homes — Return remains to family graves in Japan

- **Families to their roots** — Reconnect with relatives, registries, and history
- **Family crests to memory** — Research your kamon with EN/JP report on its history and significance
- **Stories to completion** — Close the circle that distance left open

"Loss doesn't have to be the end."

Why existing services struggle

It's not anyone's fault. But there are walls.

Wall	Reality
Language	City halls and temples rarely offer English support
Systems	Family registries and cemetery procedures require a Japanese address
Continuity	No one handles research, coordination, and accompaniment as one journey
Heart	Few treat this as "completing a story" rather than "processing paperwork"

We stand on both sides of these walls.

Why Us?

We stand at the boundary ourselves.

What we offer	Why it matters
Japanese natives living between Hawaii and Japan	We understand both worlds
Fluent in both languages and cultures	No translation barriers
We have homes in Japan ready to welcome you	Stay with family, not hotels
We know the systems: family registries, temples, cemeteries	We navigate the bureaucracy for you
We've experienced loss — Pearl (2007-2025) led us here	We understand grief firsthand

Pearl was family for 18 years. After creating a portable grave for him, we visited Pearl Harbor as a family. With his remains, we prayed for peace. 80 years after the war — times have changed, but the wish for peace transcends generations. This experience awakened our family's mission.

We don't just research. We walk with you. We carry your story home.

Sustain — Your Own Micro Datacenter

Own your data. Data protection on your terms.

Tested and running on Maui since 2023.

After the 2023 Maui fires, we learned firsthand: when the grid goes down, so does everything you depend on. Power, internet, communication — gone. We built this system so our family could stay connected, stay informed, and stay together. Now we help others do the same.

The Stack

- **Solar Panel** — Off-grid power
- **Jackery 290W** — Portable battery (car-mountable)
- **Starlink Mini** — Satellite internet anywhere
- **Mac Mini** — Your personal server

Service

Package	Price	What you get
Micro DC Setup	\$3,000	Equipment + setup + handover. Ready to use.
Managed Hosting	\$100/month	We maintain your datacenter remotely
DIY Support	\$500	Consultation + equipment list. You build it.

How it works:

1. We procure and configure the equipment
2. We set up at your location (or ship pre-configured)
3. We hand over access credentials
4. Your data lives on YOUR hardware

"Your memories don't belong to a corporation. They belong to you."

How To — Laser Engraving Basics

Choosing Materials

Material	Source	Characteristics	Difficulty
Palm leaves	Beach, garden	Returns to earth, lightweight	Easy
Driftwood	Beach	Natural shapes, one-of-a-kind	Easy
Coconut shell	Market, grocery	Hard, long-lasting	Medium
Lava rock	Hawaii local, garden stores	Heavy, lasts generations	Medium
Charcoal	BBQ supply stores	Black base, white engraving pops	Easy
Metal plate	Amazon, hardware stores	Permanent, outdoor-safe	Hard

Engraving Process

1. **Wash and dry material** (24+ hours)
2. **Flatten surface** (light sanding if needed)
3. **Create design** (Canva, Illustrator, etc.)
4. **Test engrave** (adjust power/speed on scrap)
5. **Final engrave**
6. **Finish** (oil for wood, clear coat for metal)

Recommended Settings (LaserPecker 2 Pro)

Material	Power	Speed	Passes
Wood	80%	60%	1
Palm leaf	40%	80%	1
Coconut shell	100%	40%	2
Charcoal	30%	90%	1
