# What will you preserve for 100 years?

In an age where AI answers every question,  
this is the one only you can answer.

**AI generates optimal answers. But it cannot decide what to preserve. The choice of meaning belongs to you alone.**

## WHY THIS QUESTION

### 01

**AI produces answers. It cannot frame the question.**

Generative AI produces research, analysis, and strategy in seconds. Yet "What will you preserve for 100 years?" can only be answered from the context of your own life.

### 02

**Wealth transfer is solved. Meaning transfer is not.**

Estate planning, business succession, asset management—the infrastructure for transferring what you own is mature. But the story of why you leave it cannot be designed by institutions.

### 03

**Proof of existence is a gift to the future.**

What you leave behind becomes a gift to someone in the future. To your family, your community, generations not yet born. The knowledge that someone was truly here becomes an anchor.

# What you're buying is not a product. It's dialogue with a person who holds a millennium perspective.

## OUR APPROACH

**From dialogue with a millennium perspective,  
we design your proof of existence.**

### 01

#### **Dialogue with the millennium question**

"What will you preserve for 100 years?" —  
approached through 9 intellectual domains:  
psychology, religion, economics, AI, and space.

### 03

#### **Quartz glass inscription**

No servers, no power, no institutional dependency.  
Guaranteed for 1,000 years. Readable with any  
smartphone camera.

### 02

#### **Proof of existence design**

Your life story, values, and messages structured into  
a "proof of existence" designed to reach a  
millennium into the future.

### 04

#### **Ongoing curation**

A life cannot be told in a single sitting. At each  
milestone, we update your proof of existence and  
grow your archive.

# From dialogue to a millennium. Four steps to give your proof of existence tangible form.

## PROCESS

01

### Initial Dialogue (90 min)

Centered on "What do you want to preserve for 100 years?", we listen to the story of your life. For many, this dialogue becomes a profound moment of reflection.

02

### Proof of Existence Design

Based on our dialogue, we design what to preserve, for whom, in what form. Text, photos, audio, video — the optimal media and structure.

03

### Content Creation & Curation

We produce your proof of existence. Where needed, we coordinate professional photography, recording, and editing.

04

### Quartz Glass Inscription & Delivery

Inscribed on quartz glass with a QR code. A smartphone camera is all it takes for someone 1,000 years from now to encounter your story.

# For anyone who finds meaning in leaving something behind — six high-affinity audiences

Relocating to Sado Island (Spring 2026)

I read hundreds of gravestones one by one, searching for unclaimed remains. Names weathered away. Lives erased. When I finally delivered a family's bones home, they said: "No one remembers her anymore." Those words broke something in me. Memories vanish if you let them. That's when I decided to build something that lasts a thousand years.
